Building Visions

*Specialized In Building Material Solutions*

## Company Profile

**Build Con**

## **About Us**

**Build Con Specialized in the import, trade and supply of Building materials & Industrial Solutions with a primary focus on providing Plumbing, HVAC & Mechanical solutions related to water supply, drainage, firefighting & alternative energy solutions.**

**Build Con is the exclusive agent and distributor of Hepworth products in Pakistan, an industry leader in the production of plastic pipes and fittings.**

## **Our Vision**

**To be the leading building materials supplier in Pakistan**

## **Our Mission**

**To provide the best possible solution to our clients that optimizes both value and fulfills the global standards of excellence in product quality**

# Certification

Build Con

# Product Range

## Plumbing

- UPVC Drainage Pipes & Fittings
- PPR Pipes & Fittings
- MS Pipes & Fittings
- HDPE Pipes & Fittings
- Water & Gas Meters
- All Types of Pumps

## Fire & Safety

- Fire Extinguishers
- Fire Hydrants
- Hose Reel cabinets
- Fire Alarm & Detection Systems
- Sprinkler Systems
- GI Pipes & Fittings

## HVAC

- Flexible Connectors
- Air Conditioners
- Jet Diffusers
- GI Sheets
- All types of Insulation

## Other Products

- Generators (10kVA-1000KVA)
- Portable Generators – Dual Fuel (0.5KVA- 7.5KVA)
- Solar Systems
- Power Tools
- Aluminium Composite Panels

## Hepworth

Hepworth manufactures and markets integrated piping systems to the civil and building construction sectors for the treatment and distribution of water as well as the safe transport of industrial fluids and gases. A product range of more than 30,000 products across PPR, UPVC, HDPE and other technologies allow for individual solutions for a large range of demanding applications and processes in a wide variety of sectors.

## +GF+

+GF+ Piping Systems is the global expert for the safe and reliable transportation of water, chemicals, and gas through piping systems made of plastics and metal. Since its establishment in 1802, GF has been providing system solutions and high-quality components including fittings, valves, pipes, automation and jointing technologies and covers all applications throughout the water cycle.

As the world's leading producer of life safety solutions, NAFFCO specializes in offering complete solutions under one roof for all types of high quality firefighting equipment, fire protection systems, fire alarms, addressable emergency systems and security systems certified by UL, FM, BSI, LPCB & Global Mark in consistent with International Standards.

# Our Partners

Build Con

Spirax Sarco is a manufacturer of steam management systems and associated fluid path technologies. Spirax Sarco provides engineered solutions for the design, maintenance and provision of efficient industrial and commercial steam systems (from single products through to complete turnkey bespoke packages).

Ebitt offers production, engineering and consultation services in the fields of fluids management. Ebitt manufactures pumps in inline, end-suction, multi-staged, stainless steel, borehole, drainage, sewage & water waste, process, pool pump, boosting and firefighting technologies in accordance with global international standards and certifications such as UL, FM and WRAS.

B METERS has been designing, producing and distributing instruments and solutions for measuring the consumption of water and thermal energy used for heating and cooling, for over 25 years. The product range includes turbine (velocity) type single and multi-jet water meters with mechanical or magnetic transmission, Woltmann meters, irrigation meters, flow meters, thermal energy meters and heat cost allocators with direct reading or complete with integrated modules for the remote transmission of the consumption data.

Mason Industries, Inc. manufactures and markets noise, vibration, and seismic control products internationally. The Company offers architectural engineering and building isolation products such as floating floors, walls, and ceilings, seismic engineering, snubbers and mounts, air spring and spring mount products and stainless steel flexible connectors and expansion compensators.

Huamei specializes in the production of rubber foam insulation materials, glass wool products, extrusion polystyrene insulation board (XPS) and other thermal insulation products. With seven branches, ten production plants and an annual production capacity exceeding 1.7 million cubic meters, Huamei is the largest insulation manufacturer in China.

Daehan is the oldest diaphragm gas meter maker in South Korea, with over 10 million meters supplied worldwide. Daehan ensures its gas meters adhere to environmentally friendly designs, long term accuracy and reliability along with compliance with OIML, GOST-R and ISO-9001 certifications.
